Staff Data Engineer New York NY
- Squarespace Inc, Finance Products** July 2019 - January 2020
Senior Software Engineer New York NY
- Supported and maintained financial data pipelines used for ASC606 revenue recognition, cash and tax reporting and financial planning for a multi billion dollar web site host
 - Identified and implemented several improvements to development and deployment tooling and processes to improve team velocity and reduce bugs
 - Spearheaded proposals to onboard billing and payments data onto a data vault reference architecture to improve velocity and decrease bugs, and to rearchitect reporting to mirror industry standard BI tools
 - Designed and instituted an on-call process to ensure that support work was spread evenly
- Gizmodo Media Group, Data Engineering** September 2016 - May 2019
Senior Developer New York NY
- Acted as the technical lead to deliver Amazon affiliate program commerce analytics involving three teams and multiple contractors, providing experiment data used to optimize conversions on a front page redesign
 - Architected an A/B testing API so experiments could be configured with a web UI instead of disparate scripts
 - Owned internal analytics and recommendation systems that served over 100 million users a month; overhauled legacy systems and implemented monitoring, vastly decreasing total outages and virtually eliminating undetected outages
 - Ported the organization's microservice framework from Scala and Play to Python and Flask to enable development of services by the data team
 - Directly mentored two junior employees
 - Participated in designing and building a greenfield data warehouse using Python, AWS RedShift and Looker
- Condé Nast, Copilot API** February 2014 - August 2016
Software Developer New York NY
- Developed and supported backend services for Copilot, Condé Nast's green-fielded internal CMS
 - Wrote a HATEOAS-inspired graph-capable content relationships API that supported the data modeling needs of over a dozen brands
 - Worked on the team that launched Vogue Runway's real time fashion show coverage during New York Fashion Week, including leading a data migration that replatformed over a decade of content
